

# ECOWASH™ NPS Cleaner

- Phosphate Free
- Nonylphenol Ethoxylate Free
- Removes Grease, Oil, and Grime
- Concentrated
- Excellent Rinsing Ability

**Description:** EcoWash™ NPS is a translucent-blue, alkaline liquid that is specially formulated to clean both trucks and trailers. It is specially developed as a heavy-duty, non-phosphate liquid cleaner with a unique blend of wetting and emulsifying agents, providing superior penetration of even the toughest soils.

**Benefits:** EcoWash™ NPS is one of the most powerful truck wash cleaners on the market. EcoWash™ NPS breaks the bond that holds road film to painted surfaces, suspending grime in a rinse able form that leaves the surface free from residue. It is designed specifically for eco-friendly wash programs where the use of phosphates is restricted. Highly concentrated for economical use. This product can be used alone, but for maximum impact it should be used in combination with EcoWash™ NPS.

**Directions:** EcoWash™ NPS can be diluted up to 100:1 depending on the soils present. Apply by spray foamer or pressure wash. Extra tough jobs may require brushing as well, after cleaning rinse with water.

**Signal Word: Danger**

**H290 - May be corrosive to metals**

**H314 - Causes severe skin burns and eye damage**

**H318 - Causes serious eye damage**

### Specifications:

Color:	Blue
Odor:	Mild
pH:	~ 12 (Concentrate)
Biodegradable:	Yes
Water Solubility:	Complete
